Arkansas Department of Education 2009-2010 Technology Plan Addendum Assurances

Signing this assurance form shows that the superintendent/director has read and certified to the following conditions:

- All FCC forms and use of state master contract(s) submitted for Funding Year 2009-2010 are based on the district's, school's or education cooperative's technology plan; all Form 470 items (besides basic phone service) can be found in the district's, school's or educational service cooperative's technology plan and/or technology plan addendum; and
- Although the basic structure of the technology plan has been approved, it is understood that E-Rate rules require a level of consistency between the technology plan and the E-Rate funding requests that may not be subject to review under the Arkansas technology plan approval process. Therefore, it is agreed that the applicant will be held
- responsible if the technology plan is found to be inconsistent with the funding Year 2009-2010 application process.
